PIN MARKERS

NSN

White Pin Marker 9905-99-730-3956

Red Pin Marker 9905-99-497-9315

Green Pin Marker 9905-99-254-5197

Description

The Evolution Reusable Pin Markers have been developed for all users operating in a high threat environment to give them a simple and effective individual dismantled marking solution to obviate the need of making pin markers from pieces of wire and marking tape.

The Evolution Pin Markers are designed taking advice from experienced CIED, Demining and High Risk Search professionals. These markers are used across the range of EOD UK Ltd product portfolio.

Deployment

The Pin Markers can be used in day and night conditions, they are compatible with 1.5 inch mini light sticks. They can be placed directly on the ground and have a 2mm wide channel for use in a flag configuration with EOD UK supplied carbon fibre rods they can also be pinned to walls and other surfaces using drawing pins etc.

Accessories

15mm diameter magnets with peel off self-adhesive backing, these can be used to stick to the markers for use in environments such as ships and installations for Maritime Interdiction operations.

Mini Light stick carrier

Uses

Safe route marking
Route marking
Marking UXO, mines & IEDs
Marking command wire finds
Search finds
